~~CONFIDENTIAL~~

Monday, 17 November 1952

25X1A9a

1. [REDACTED] O/SI, called for guidance on the relationship between O/SI and their man, [REDACTED], who has been put in a DCI slot and assigned to [REDACTED]. O/SI feels that it will have substantive matters to discuss with [REDACTED] and would like permission to deal directly with him even though he is on DCI's Staff. I discussed this with DD/I who said that he does not wish to create an unnecessary layer between O/SI and [REDACTED] and therefore does not require that all matters going to [REDACTED] be cleared through this Office. So advised [REDACTED], who told me that O/SI will keep a separate file of all correspondence with [REDACTED] which file could be produced at the DD/I request if we should wish to review the direct relationship at any time.

3. [REDACTED] FI, called and stated that he now has the American and French Agenda items for the Tripartite Conference. I set up a meeting for him with Messrs. [REDACTED] Sheldon, and [REDACTED] so that work might start on the preparation of intelligence as requested by [REDACTED].

25X1A9a

4. Cable IN 13181 from [REDACTED] requests that certain unclassified and Confidential studies outlining CIA's Mission and Functions (Dulles' speech, Look Article, etc.) be pouched to [REDACTED] for use of [REDACTED]. I released a copy of this cable to O/CD and called [REDACTED] requesting that O/CD take the action and inform me when this has been completed.

5. The cable mentioned in paragraph 4, above, was sent to O/RR for action as it was addressed to Mr. Amory. I called [REDACTED] Cable Secretariat, and requested that until 20 December, such cables addressed to Amory in his capacity of DD/I be referred directly to this Office.

25X1A9a

6. As [REDACTED] has asked me to be au courant with the Eyes Only and all similar matters concerning him, I have felt that I might happen upon matters for which a "Q" clearance would be required. I explained this position to [REDACTED] of O/SI telling him that I have no desire for a "Q" clearance as such, but wished them to be aware of the fact that I might be exposed to "Q" material inadvertently. I suggested that he discuss this with his principles to assure that either 1) "Q" matters be delivered directly to the DD/I, or 2) that I be given a "Q" briefing.

25X1A9a

7. Met [REDACTED] at 2028 Q and attended the start of a meeting between him, [REDACTED] and representatives from O/RR. Work is now under way in the preparation of comments on the Agenda items for the Tripartite Conference. No further action is indicated for O/DD/I until the intelligence reports are ready.
